

Natural silicone hose R without insertion

It does not have an insertion. It's sterilisable, UV, the walls of the hose are clear and smooth. We provide the inside diameters and wall thickness, from

- different colour
- heat stabilized design, which is heat-resistant up to 250 or 300 °C
- different hardness
- wide size scale

Heat resistance: -60°C /+180 C

Structure: *-indicate the brick red colour, **-indicate the black colour

Certain diameters are available from stock. Meantime, we hold the right of selling the stock in products.
